Stories  
IN FOCUS

## W H Y   I N V E S T ?

Your first decision as an engaged couple is to set priorities for your wedding planning. You have to decide what you value most. Is it the dress? The food? The Venue? As a bride and photographer, I believe that couples should make their photography a top priority. After the big day is over, you will leave your reception with a spouse & your pictures.... that's it! All of that planning and preparation is over in a matter of hours! So if you're choosing to invest in high quality photography, those images deserve a classy, elegant home after the wedding.

We offer high end, fabric bound albums for our wedding clients. The images are printed straight onto art paper pages and the covers are wrapped with beautiful soft grain fabric. This is the perfect ending to The Wedding Experience and it's a keepsake that you will be showing your children and grandchildren one day!

Other items like prints, canvases, calendars, etc. can be purchased directly from your online gallery.

This technology impresses a bookbinding font which can be left plain or embossed with your choice of coloured foil. Available on most leatherettes.

## **UV Print**

This technology prints a layer on the chosen material. Due to its noninvasive character, it is available on most materials.

## **Laser Etch**

This technology exposes the base layer of the leatherette. Due to its invasive character, this technology is available on selected materials.

\*Note that the images provided are previews. Our supplier guarantees that the outer colour of the materials will always be the same, however, the material's base colour may differ slightly which in turn may impact the colour of the laser etch.

**The technologies mentioned above are applied only to selected materials.**
